GARDEN MAKING

A spot all ugly and empty
With no grace of tree nor flower,
Wakes the sentient soul with longing
And a vision of garden bower.
Comes digging and planting and toiling
And hoping the springtime through,
Blooms a plot of flowery pathways,—
Ah, this is what love can do!

As the radiant spring sunshine warms the heart and leads our footsteps gardenward the bare and ugly places on the home grounds fire the imagination and kindle our love for beauty. Here lies an opportunity to spread confidence and optimism by keeping the home surroundings neat and attractive.

FISHER FLOWER FARM offers you sturdy vigorous plants of the highest merit. Although prices have been sharply reduced to meet the need for economy our aim is always to give superior quality and unstinted service. We shall be glad to give desired cultural information and suggestions for planting. Detailed plans and expert labor in making perennial gardens, alpine gardens, or in making an old garden will be furnished at reasonable prices. We are wishing you the greatest success in your gardening activities during the spring and summer of 1933.
